Benefits of IIM Indore Alumni Status

The participants who will complete the programme successfully will be eligible for the Executive Education Alumni status of IIM Indore. They will require to apply separately along with the necessary fee to register their name. Current alumni membership plans are as follows:

- 2-year membership – Simplilearn benefit
- Lifetime membership – INR 10,000/- + applicable taxes

Benefits available to Executive Education Alumni:

- Communication of brochures and newsletters from IIM Indore
- Access to the IIM Indore Campus Library (onsite access only)
- Official email ID of the institute
- ID Card

Mere successful completion of the programme, application submission, and fee does not entitle a participant to be eligible for executive education alumni status. IIM Indore reserves the right to confer executive education alumni status.

IIM Indore reserves the right to modify the above conditions at its discretion at any time without notice. Only the courts at Indore will have the territorial jurisdiction to try any disputes arising in respect of the Executive Alumni membership being granted.

About Simplilearn

Simplilearn is the world's #1 online Bootcamp provider, enabling learners across the globe with rigorous and highly specialized training offered in partnership with world-renowned universities and leading corporations. We focus on emerging technologies and skills, such as data science, cloud computing, programming, and more, that are transforming the global economy. Our training is hands-on and immersive, including live virtual classes, integrated labs and projects, 24x7 support, and a collaborative learning environment. Over two million professionals and 2,000 corporate training organizations across 150 countries have harnessed our award-winning programs to achieve their career and business goals.

Who should enroll:

For admission to this General Management program, you must have:

- A bachelor's degree (any discipline) with a minimum score of 50%
- At least 2+ years of experience (preferred)
- An eagerness to apply course concepts to real business problems

Application Process

The application process organized and led by Simplilearn consists of 3 steps. An admission offer will be made to selected candidates and accepted by paying the fee.

Step 1

Submit an Application

Fill out the application and include a succinct statement of purpose to explain to our admissions staff why you are qualified for and interested in the Executive certificate program in General Management.

Step 2

Application Review

A group of admissions counselors will analyze your application and statement of purpose after you submit it to ascertain your qualifications and interest in the program.

Step 3

Admission

Selected candidates can begin the program within 1-2 weeks

Talk to an Admissions Counselor

Our staff of committed admissions counselors are available to assist you with the application process and other relevant issues.

- You can connect with them to:
- Answer any questions you have about the application
- Provide details about available financial assistance (if required)
- Help you understand the program better

Program Outcomes

At the end of this Executive Certificate Program in General Management, you will be able to:

- Understand foundation of management concepts
- Have a clear understanding of accounting principles and financial concepts
- Develop skills to design a marketing plan
- Develop a problem-solving approach through design thinking
- Make data-driven strategic decisions
- Improve operational efficiency and decision-making across the supply chain
- Drive critical business decisions and craft successful strategies
- Learn approaches to managing human resources
- Discover and apply your strengths as a leader

Learning Path

- Step 1 Foundations of Management
- Step 2 Economics for Business
- Step 3 Accounting and Financial Management
- Step 4 Operations & Supply Chain Management
- Step 5 Marketing Management
- Step 6 Human Resource Management
- Step 7 Business Analytics
- Step 8 Management & Leadership
- Step 9 Business Strategy
- Step 10 Design Thinking
- Step 11 Digital Disruption & Innovation
- Step 12 Capstone Project

Step 1: Foundations of Management

This course will provide you with a thorough introduction to management practices via the lenses of four important disciplines: accounting, finance, marketing, and organizational behavior. Build the skill set necessary to successfully lead your division or business, and offer assistance to current managers who want to advance their careers.

Step 2: Economics for Business

Understanding basic economic concepts like elasticity, demand and supply equilibrium, and industrial laws can help you fully comprehend significant macroeconomic changes, their effects on businesses, and how to respond to them. Learn about GDP, taxation, repo and reverse repo rates, the classical and Keynesian case, monetary and fiscal strategies, and other key ideas.

Step 3: Accounting and Financial Management

Learn how accounting principles are used to evaluate and communicate a company's financial position to external stakeholders and how to interpret financial reports to make business decisions. This course also covers important aspects of debit and credit, balance sheet, cashflow, financial statement analysis, capital structure, and costs of debt and equity.

Step 4: Operations & Supply Chain Management

Learn how products and services are developed and created, purchased and sold, and offered to clients in the manufacturing and service industries by using problem-solving, strategic decision making, and critical thinking. Additionally, you will study the procurement process, process transformation, process automation, and the product-process matrix.

Step 5: Marketing Management

In this course, you will gain an understanding of the most important marketing strategies, including market research, competitor analysis, segmentation, the 5C framework, and many others. These strategies will help you examine consumer attitudes and behavior toward products and services in a rapidly changing environment.

Step 6: Human Resource Management

Learn how to connect with and engage staff for improved performance output, and how to manage staff performance utilizing a variety of compensation and reward management techniques. Additionally, you will gain knowledge of how to perform a job analysis, create a job description or job specification, and the difficulties in hiring and choosing employees.

Step 7: Business Analytics

The course emphasizes the use of three different types of analytics – descriptive, predictive, and prescriptive analytics. It also includes technical skill-building modules on advanced analytics, big data analytics, social media analytics, decision trees, pyramid of analytics, and data-driven decision-making. Learn the value of real-world business and management modeling using the most recent quantitative tools and approaches to solve a range of business and management problems.

Step 8: Management & Leadership

Learn the fundamentals of effective team leadership, how to build and manage successful teams, and how to encourage a creative workplace culture. Discover how leadership may affect corporate success, employee development, and the importance of leadership at various levels.

Step 9: Business Strategy

Learn about the fundamental theories and frameworks, such as the 5C force analysis, positioning strategies, PEST & SWOT analysis, and value chains that organizations use to discuss sourcing issues, market entry strategies, and every aspect of developing and putting organizational strategies into practice.

Step 10: Design Thinking

Learn to use design thinking as a strategic tool to create new products and services. Understand how to adopt design thinking in a company and the differences between systems thinking, complementary mindsets, and design thinking. Discover and pursue an innovation opportunity in this section, while also learning about the human-centered design framework, to create products and services that are appealing, viable, and practical.

Step 11: Digital Disruption & Innovation

Learn the underlying themes that successful digital disruptors employ. Discover the fundamentals of business models, the 4I framework, pricing schemes, the digital supply chain, digital transformation, and many other key ideas. Imagine the potential changes that disruptive technologies like Artificial Intelligence, machine learning, the Internet of Things, automation, etc. can add to the corporate landscape.

Step 12: Capstone Project

The general management capstone project will help you put the knowledge you've learned in this Bootcamp to use by applying it to numerous sectors. With the help of focused mentorship sessions, you'll discover how to resolve a real problem pertinent to your field. You will gain practical experience by working on projects with an industry focus. You can show potential employers your proficiency through the capstone project, the final step in the learning process.

Certificates

Upon completion of this program, you will be awarded with a certificate from IIM Indore.

*Sample certificate is indicative. The Institute reserves the right to revise it.
